Art Unit 121

Claims 1-3, 7-11, 15-20 and 25-28 rejected under 35 U.S.C. 112, first and second paragraphs, as the claimed invention is not described in such full, clear, concise and exact terms as to enable any person skilled in the art to make and use the same, and/or for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terms "ester, amide, ether, acetal or ketal derivatives", all occurrences, render the claims indefinite. The specification is imprecise as to the meaning of the terms and only provides a preferred list of possible substituents.

Claims 4-6, 12-14 and 21-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

It is suggested that to advance prosecution, the nonelected subject matter be cancelled when responding to this Office action.
